Question 2

The image consists of two screenshots of a terminal window within a virtual machine. The top screenshot shows a sequence of directory navigation commands: `pwd` (returns `/home/juan`), `cd /usr/share/themes`, `pwd` (returns `/usr/share/themes`), `cd /`, and `cd /etc/firefox/pref`. The bottom screenshot shows the user navigating from `/etc/firefox/pref` to `~/Downloads` and then to `~/Documents` using `cd` commands. Both screenshots show a terminal window titled 'juan@juan-VirtualBox: /etc/firefox/pref' and 'juan@juan-VirtualBox: ~/Documents' respectively. The window includes a top bar with 'Applications' and 'Places' menus, and a bottom status bar with system icons and the time (8:56 PM and 9:16 PM).
